Dear Parents,

It had been noticed that many students, though suffering from bad cough, running nose and even fever, are being sent to school, regardless the fact that there might be among their colleagues and teachers ones who suffer from chronic diseases. This behaviour is extremely unacceptable.

Accordingly, parents are totally prohibited from sending their child to school if he/ she happens to show the slightest sign of illness.

If parents insist on behaving as such, the school will be forced to send the child to the clinic, call home to pick him/ her up. The student will not be permitted to enter the class or the school bus.

The school expects all the parents to act as responsible as always so as not to endanger the life of the staff and the students.

College Director

Hala Toma.
